

MACHINE GUARDING SET - HEXDOG™ LINE HOLLISTER-WHITNEY 34 THROUGH 64 SERIES

Product highlights:

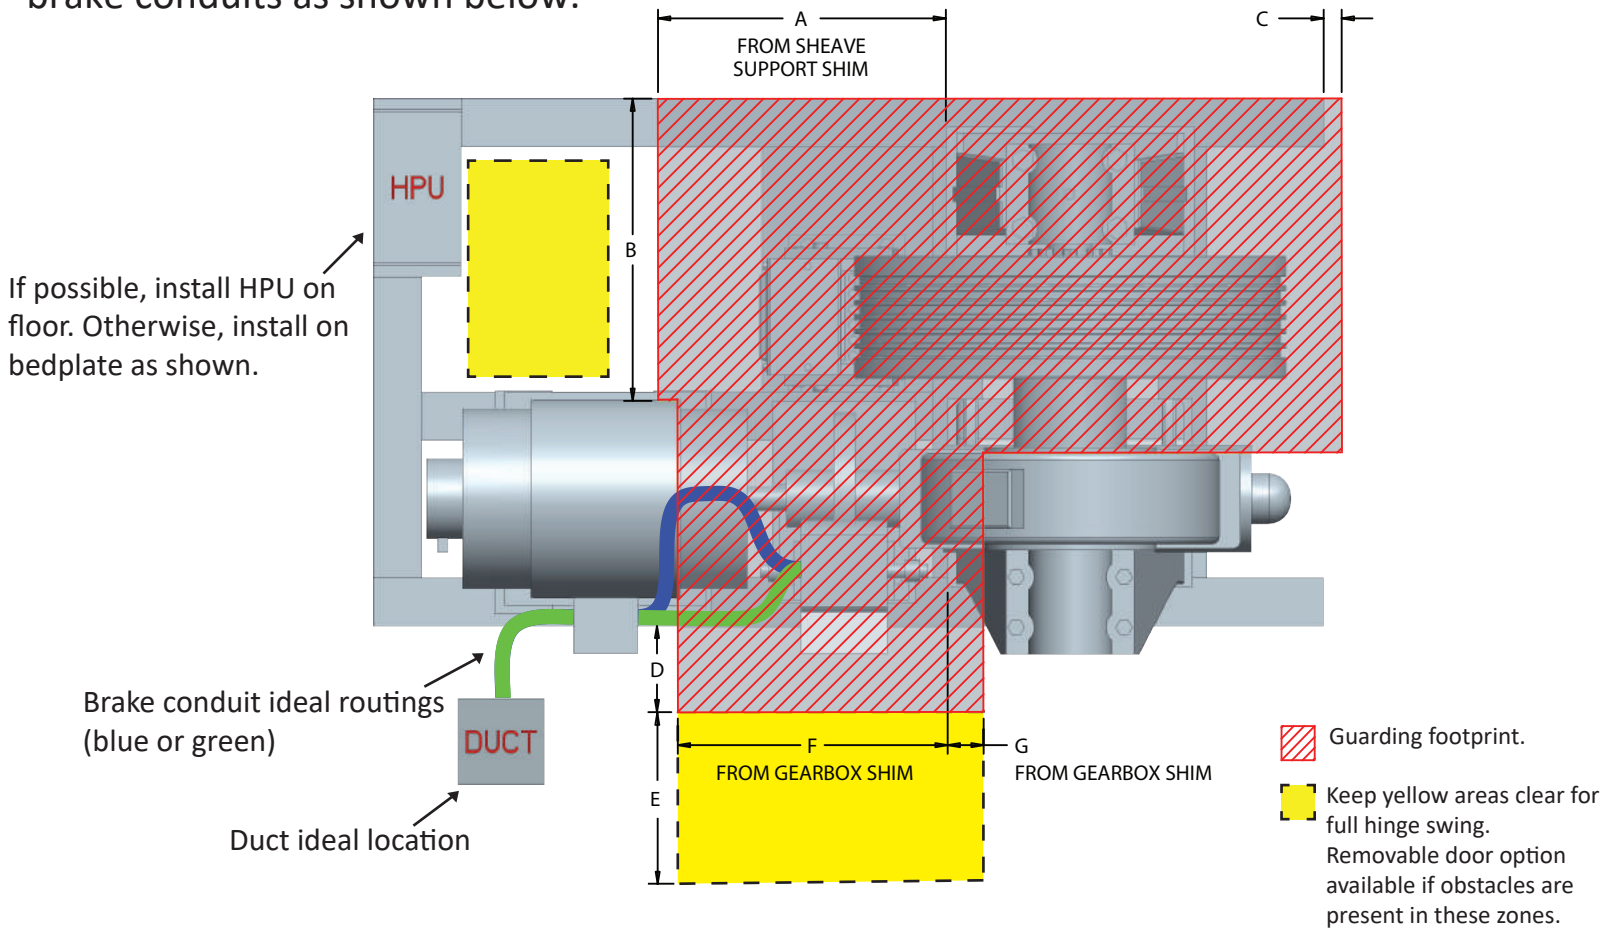

- Tight fit optimized by 3D scanning technology
- Designed to minimize impact on maintenance
- Hinged panels and captive screws
- Compliant with CSA Z432 and ANSI B11.19 (OSHA)
- Parts made using computer numerical control (CNC)
- Safety yellow powder coating
- Simple and quick installation
- Detailed installation drawings
- Ideal machine conduit routing layouts provided
- Designed and manufactured in North America

Adapter kits available for:

- Rear-mounted gripper
- Different motors and tachometers
- Basement machines
- Raised machines
- Rope retainers

To ensure that the guarding set can be installed properly with doors operating as intended please keep x-hatched areas clear of components (conduits, ducts, hpu, etc.) and route brake conduits as shown below.
